

**Capability list for Nondestructive Inspection, Testing, and Processing**

<sup>1</sup> Nomenclature	<sup>2</sup> Method	<sup>4</sup> Limitation	<sup>5</sup> Date
NDI/ NDT/ NDP	Liquid penetrant (PT)	Methods, techniques and practices prescribed in the current manufacture's maintenance manual or Instructions for Continued Airworthiness or other methods, techniques and practices acceptable to the FAA Administrator.	06/30/2020
NDI/ NDT/ NDP	Magnetic particle (MT)	Methods, techniques and practices prescribed in the current manufacture's maintenance manual or Instructions for Continued Airworthiness or other methods, techniques and practices acceptable to the FAA Administrator.	06/30/2020
NDI/ NDT/ NDP	Thermography (IRT)	Methods, techniques and practices prescribed in the current manufacture's maintenance manual or Instructions for Continued Airworthiness or other methods, techniques and practices acceptable to the FAA Administrator.	06/30/2020
NDI/ NDT/ NDP	Eddy current (ET)	Methods, techniques and practices prescribed in the current manufacture's maintenance manual or Instructions for Continued Airworthiness or other methods, techniques and practices acceptable to the FAA Administrator.	06/30/2020
NDI/ NDT/ NDP	Ultrasonic (UT)	Methods, techniques and practices prescribed in the current manufacture's maintenance manual or Instructions for Continued Airworthiness or other methods, techniques and practices acceptable to the FAA Administrator.	06/30/2020
NDI/ NDT/ NDP	Radiography (RT)	Methods, techniques and practices prescribed in the current manufacture's maintenance manual or Instructions for Continued Airworthiness or other methods, techniques and practices acceptable to the FAA Administrator.	06/30/2020
NDI/ NDT/ NDP	Borescope	Methods, techniques and practices prescribed in the current manufacture's maintenance manual or Instructions for Continued Airworthiness or other methods, techniques and practices acceptable to the FAA Administrator.	06/30/2020
NDI/ NDT/ NDP	Precision measuring	Methods, techniques and practices prescribed in the current manufacture's maintenance manual or Instructions for Continued Airworthiness or other methods, techniques and practices acceptable to the FAA Administrator.	06/30/2020
